

Train & Inspire The Future of Psychiatry: The Benefits of Allowing Trainees to Attend EPA 2017

The [25th European Congress of Psychiatry](#) is the largest gathering across all fields of psychiatry in Europe. EPA 2017 is a prime opportunity for your young psychiatrist to enhance their skill set, by participating in this experience and exploring the top psychiatric practice, education and research.

By allowing your trainees to benefit from the EPA's European Early Career Psychiatrist Programme at EPA 2017, **it is your clinical practice that will ultimately be enhanced.**

There are several reasons to give your trainee the time to attend the Congress, 1-4 April 2017, including:

Build the Perfect Trainee

EPA 2017 enables you to tailor the Congress to your practice's specific needs by offering a diverse range of sessions, experiences, and collaboration opportunities for your trainee.

Mix & Mingle in Florence

A central and integral part of the programme is networking and recruitment.

CME Credits

At EPA 2017, your trainee will be able to achieve valuable CPD.

Top Performance

Your trainee will be empowered by the experience of sharing their work on an international platform and with their peers. There is simply no substitute for the live audience of experts that EPA 2017 provides.

Trainee In, Professional Out

EPA's scientific programme offers a tangible return on investment for your training budget. Early Career Psychiatrists also benefit from discounted registration fees.
