#EPA2024
WELCOME MESSAGE

It is with great pleasure and enthusiasm that, together with Local Organising Committee Chair Professor János Réthelyi, we invite you to the 32nd Congress of the European Psychiatric Association. The Congress will take place 6-9 April 2024.

We are heading to another place of excellence, Budapest, capital of Hungary. As a global and multi-cultural hub, Budapest is at the crossroads between East and West, and as such, excellently placed for a bridging role in Europe. Indeed, in these complex geopolitical times, the importance of joining together, crossing borders, and overcoming differences is more crucial than ever.

**Within this context, the motto of our congress is timely:**

**Mental Health: Open and Inclusive!**

It highlights three core aspects of modern psychiatry:

- **Mental health** as a broad dimension from mental health prevention and resilience building to the treatment of specific disorders.
- **Open** refers not only to our fundamental human rights but also to open mindedness and curiosity for novel approaches and ideas.
- **Inclusive** implies welcoming and respecting differences between people.

We are convinced that Budapest 2024 will prove to be an excellent opportunity to meet old and new friends, expand your horizons in our beautiful profession and enjoy the many excitements and delights Budapest and Hungary have to offer.

We look forward to seeing you and the whole EPA community teaming up in Budapest.

Geert Dom  
EPA President

János Réthelyi  
Chair of the Local Organising Committee

EPA CONGRESS PROFILE
The EPA Congress Scientific Programme is structured around 5 main tracks, each composed of a variety of Plenary, State of the Art, Pro & Con Debates, Symposia, and Workshop sessions:

- **Research** - is composed of sessions with a focus on current research trends in psychiatry
- **Clinical / Therapeutic** - offers participants updated, state-of-the-art, clinical and therapeutic information which is based on research and linked to daily practice
- **Educational** - provides an update on developments in the field and the opportunity for exchange of ideas between participants and speakers
- **European** - deals with common issues for psychiatrists across Europe and will therefore be of particular interest for members of the National Psychiatric Societies/Associations
- **Mental Health Policy** - deals with principles and models for action aimed at promoting mental health

Within each track, some sessions are part of the European Early Career Psychiatrists’ Programme (EECPP). EPA invites recent graduates to participate in these sessions, which are tailored to the needs of the early career psychiatrist.
The Scientific Programme will also include:

- **Free Communications Sessions** – Sessions classified by topic, in which the authors of selected outstanding abstracts will give a talk.
- **E-Posters** – e-Poster viewings classified by topics, in which outstanding posters will be presented electronically. In addition, daily e-Poster Walk Sessions take place during the lunch breaks.
- **Ask the Expert Sessions** – These sessions allow participants to meet in a small group with outstanding researchers and clinicians. The sessions, limited in number and taking place at round tables, are designed to facilitate informal discussion, allowing participants to present their questions and gain new perspective.
- **Industry Supported Sessions** – Satellite Symposia organised by pharmaceutical companies in consultation with the Scientific Programme Committee.
- **EPA Courses**: high-quality Courses, covering all aspects of psychiatry. Fees are charged separately for these courses.
